FUR RABBITS

We Have a Brand New Tract for You Today in the City of Factories—Torrance

We are opening a new small tract north of the P. E. Company's large shops at Torrance. We have only 15 1/2 acres or 87 lots in the whole tract and we are selling the property cheaper than any property in the harbor district.

We are building a 3-room cottage with water, light, gas and lavatory in, on a lot 50x100 ft., for \$1975, or a 2-room cottage on a 50x100 ft. lot, also water, light, gas and lavatory in, for \$1750, and the same sized house on a lot 50x142 ft. running from the proposed Los Angeles Street, which is to be a 100-ft. Blvd., to a new street we are just putting in; you have two frontages and the lots are large enough so you could build on either street. Of course this boulevard frontage should some day be business property. The 2-room cottage built on this 50x100 ft. lot, running from street to street, we are selling for \$2250, and the 3-room for \$2475. We have a large force of carpenters building 10 of these houses now. We only charge 20% down and the balance like rent. Carpenters who want a home can apply for work. With any of the above propositions we give you 10 Chinchilla Fur Rabbit Does and 1 Buck free. Your lots are large enough so you could add chickens and

in a very short time your income should be enough to make your payments. For those who do not want a home at present, we are selling lots 50x100 ft. for \$275, or fronting on two streets, one a 100-ft. Blvd., for \$1450.

We are making reservations on this property, beginning today, but the grand opening will be on Saturday and Sunday, March 26th and 27th, when we will have a lunch and a lecture. The lecturer will tell you all about the Fur Rabbit industry and also about the great industries at Torrance. You no doubt know that Torrance has more factories than any other city of its size in California. The Columbia Steel Company are now

doubling their plant, putting on 400 or 500 extra men; several of the other plants are increasing their capacity very materially. The General Petroleum Co. bought 900 acres of land just north of our small tract and we understand they expect to move their Vernon refinery to this location and spend \$10,000,000 or \$12,000,000 in the transaction. Remember, Mr. Inventor, a small city, with 4000 or 5000 men working in it, real estate is sure to increase in value and you cannot get in a safer place to put your money. This is only a small tract and should be closed out by opening day. You have a week between now and opening day, so if you are interested, would ask you to come out at once.

We have built and equipped a large demonstration farm where we teach you how to care for Fur Rabbits. We also manufacture beautiful fur garments that you will see on display at our demonstration farm. It is well worth your trip to see these garments and Fur Rabbits, hear the lecture and have a sandwich and cup of coffee with us.

HOW TO GO

Go west from the P. E. Co.'s shops at Torrance about 1000 ft., turn north on Cedar Street 1000 ft., and you will be at our Tract office. Those not having cars of their own can come on street car and it is only a short walk out to the tract. Salesmen with cars wanted T. J. NESTOR, Owner Main Office, 28 American Ave., Long Beach. Phone 633-388.

Local Students Win Honors In Fruit Contests

Judging Matches Find Torrance Pupils Among State Leaders

Torrance agricultural students brought home several first and second ribbons from the citrus fruit judging contest at the orange show at San Bernardino. The faculty and school are very proud of these ribbons, since the local team was in competition with students from all of the large schools in the citrus belt.

Thirty-eight varieties of citrus trees, all budded from original parent trees, are to be found at the school nursery, in addition to about 200 varieties of other trees and shrubs.

Police Raid 3 Poker Games

(Continued From Page One) hurried quips at the carloads of prisoners, and a throng gathered in front of the jail to watch proceedings.
